THULE EPOS

Thule Epos 979

The most versatile bike carrier for all type of bikes.

1. Fast and easy loading and unloading of all types of bikes and e-bikes. The patented telescopic bike arms with pivoting cradle and steel reinforced straps attach to the bike frame or rear wheel
2. The high load capacity of 30kg/bike makes it possible to transport heavy ebikes
3. Generous 25cm distance between bikes reduces risk of bike-to-bike contact
4. Extra-long wheel holders enable easy transport of bikes with long wheelbases, up to 1350mm
5. Ratcheting pump buckles and wheel straps for easy fastening of tires up to 3,2" (up to 5" tires with a separately sold accessory)
6. Fully foldable for convenient installation, handling, and storage
7. With bikes mounted, the trunk is accessible with a smart foot pedal tilt. Without bikes, the trunk is accessible without tilt
